I think I understood, but I"charm not absolutely sure so I answered "I was confused".

too long

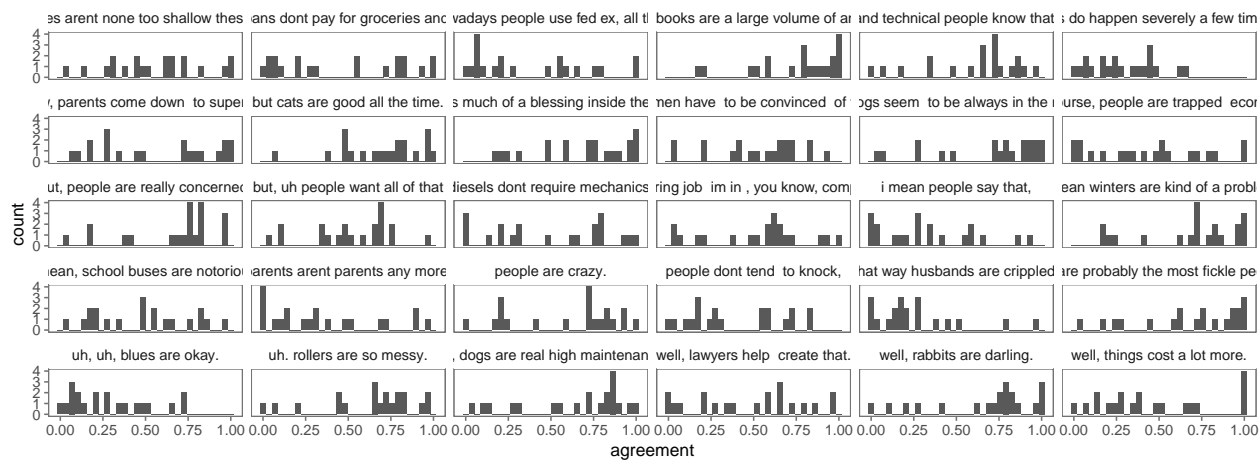

I don"chart think I was confused. I read all the instructions but there was a sentence in the beginning that I rated and was told it was incorrect. Honestly, I didn"chart feel most of these sentences deserved to be underlined but I did my best. Instructions were very unclear. I wasn"chart really sure what relation I was looking for. Was it a description of the object relative to the passage?

Underpaid, should have been more like \$1.50 for the amount of text to read, it takes a little more than 10 minutes

Better wording would make it clearer.

The passages were very hard to read with the typos and bad formatting.

I don't understand why letters on words are missing.

n/a

a couple of typos in some of your passages

This hit could use a little more directions.

I tried my best.

Some of these assessments were really quite difficult! But I enjoyed the HIT. Thank you. I tied my best to translate the gibberish.

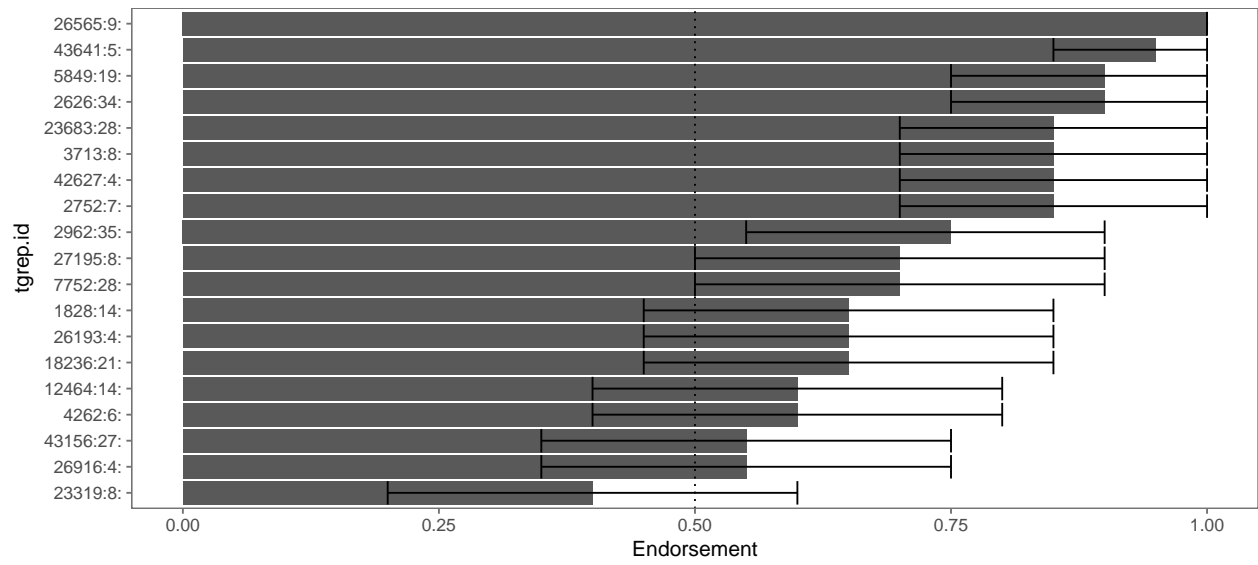

A lot of the text had misspellings and that made them quite difficult to read.

Most of the paragraphs were hard to read since the words were broken up.

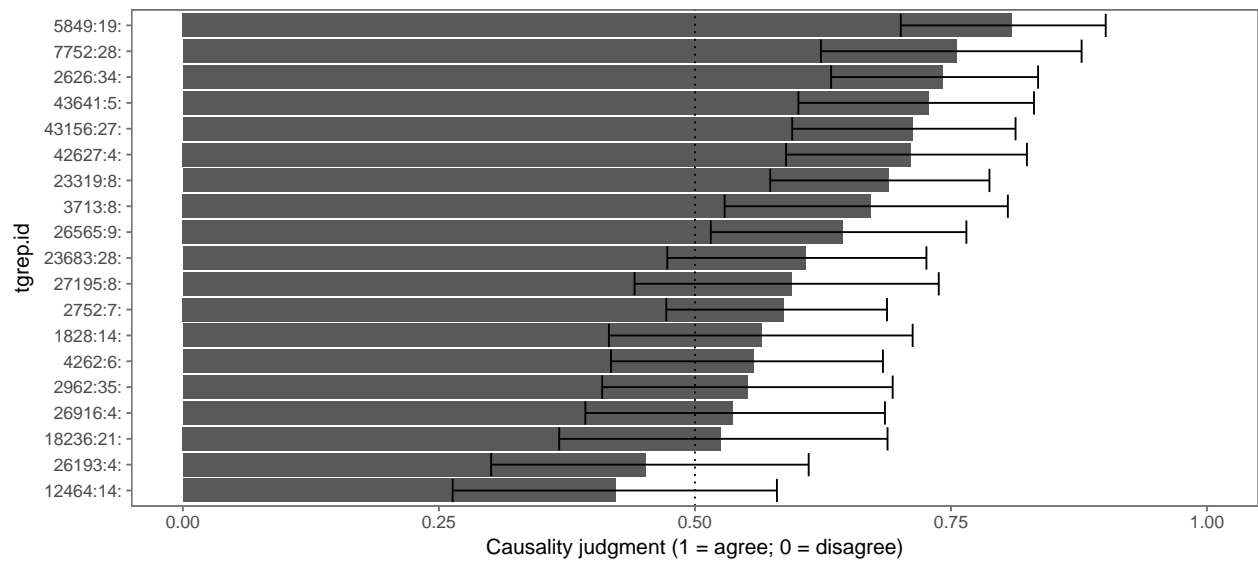

Table of items

tgrep.id	entire.sentence
43641:5:	stocks have a place in an investors portfolio along with real estate, bonds, international securities and cash, he s
26916:4:	flights are" missions.“
